

## Product Data

### CASTROL OPTILEB® GT™

Fully synthetic gear lubricants, physiologically safe, USDA H1 authorized

#### DESCRIPTION

OPTILEB® GT are gear oils with USDA H1 authorization, especially developed to meet the special requirements in the food and beverage industries. They are based on synthetic oils and contain carefully selected additives to prevent wear, oxidation and corrosion.

OPTILEB® GT gear oils are in conformity and even exceed the requirements of DIN 51517 part 3 CLP.

#### APPLICATIONS

- For the special requirements in the food and beverage industries where there may be direct exposure of the lubricated part to the edible product or its packaging
- For spur, angular and worm gears
- For gear motors of stirring machines, turners, packaging machines etc.
- For chain variators
- For rolling and sliding bearings
- For pumps and closed circulating systems

#### ADVANTAGES

- OPTITEC® - OPTIMOL technology
- odorless, tasteless and colorless
- high load carrying capacity
- excellent wear, oxidation and corrosion protection
- good water separation ability
- no foam formation
- neutral to nonferrous metals
- excellent viscosity/temperature behavior
- miscible with mineral oil
- disposal like mineral oil

#### NOTES FOR USE

- Please observe the viscosity specified by the manufacturer.
- Good compatibility with conventional sealing materials.
- As OPTILEB® GT is miscible with mineral oils no large-scale cleaning and flushing is necessary during conversion.
